

# DRUG LOOKUP TOOL

## What Prescriptions Are Covered on Your Plan?

In order to help you understand the drug coverage of your pharmacy insurance plan, MedOne Pharmacy Benefit Solutions has created the Drug Lookup Tool to help you better understand what's covered on your specific plan. The Drug Lookup Tool allows you to search for medications, learn if they are covered on the benefit, see the drug tier, identify any limits or restrictions, and find alternatives.

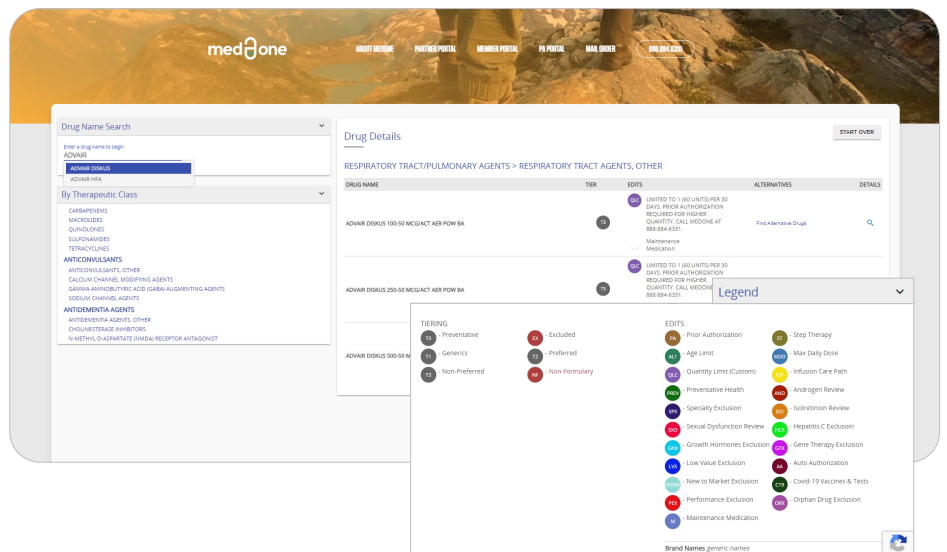

- Visit [www.medone-rx.com](http://www.medone-rx.com)
- Click on the **MEMBERS** tile along the bottom
- Select **DRUG LOOKUP** under “Unlock Your Pharmacy Benefit”
- Enter the group number found on your ID card, and select **CHECK COVERAGE**

The main page contains formulary documents and information on how to search for drugs and request a coverage determination.

## How to Use the Drug Lookup Tool

- Enter the drug name in the search bar on the left or search your prescription via the therapeutic class list
- Drug details will generate to the right including the tier, edit/category, and additional details about the drug
- In the Legend, click on the color circle to view each edit's definition

## Questions?

Our Member Advocate team can also assist with any questions you may have regarding your prescription benefit. Call **866-335-9057** or check out our LIVE chat feature on our website at [www.medone-rx.com](http://www.medone-rx.com).

Please note: The Drug Lookup Tool is meant to provide members with an idea of what drugs are and are not covered by their pharmacy benefit plan. This tool may return varying results based on the plan design, member election, and time of year.
